The Present Day

HERE never has been a time in the history of America when the opportunities-for the salaried man and the wage earner-to become rich, or at least independent, are as great as they are today.

The day of the "I-never-had-a-chance" has passed. The savings banks have made it possible for every one to save money in small amounts, and if the average man had the simplest conception of the great earning power of his money placed in this safe bank at 3 per cent interest he would get it here as quickly as possible.

great name for himself as a world-heater in his particular line, but instead of staying in retirement with fame that would have lived forever, each came back and was stripped of his luster. Chance's success as manager of the Cube caused him to be rated by many as one of the greatest baseball generals of all time, though to many it flooked as if fortune aldeed him in handing him a great ball club aiready built up by Frank Selec. A team including such stars as Evers, Tinker, Sheckard, Steinfeldt, Kling, Overall, Schulte, and others didn't need a great deal of managing. When it came to showing stuff as a real manager and team builder at New York, Chance was not there with the goods, and to many outsiders it lookes as if Owner Frank Farrell was pulling a bone when he falled to accept Chance's resignation in the first place, as it afforded an opportunity to terminate a \$10,000 contract that had another year to run.
